EDUCATION

University of Texas at Dallas - *Departmental GPA: 4.0* Richardson, Texas
Bachelor of Science in Computer Science December 2025
Relevant Courses: Data Structures & Algorithms, Unix/Linux Environments, CS I & CS II, Physics I & II, Calculus I & II, Discrete Math, Linear Algebra, Database Systems, Adv. Algorithms, Automata Theory, Digital Logic & Comp. Design, Software Engineering

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C++, HTML, CSS, SQL
Frameworks/Libraries: React, NodeJS, Flask, Pandas, NumPy, TensorFlow, Tailwind, FastAPI, Vue.js, Vercel, PyTorch, MongoDB, Supabase, Git, Docker, AWS (CloudWatch, Lambda, S3, DDB, Step Functions, etc.), Scrum, Agile

WORK EXPERIENCE

Amazon Web Services East Palo Alto, CA
Software Developer Engineering Intern May 2025 – August 2025

- Architected a feature flag management and observability framework, supporting 10,000+ features and enabling 64% faster, safer, and more seamless deployments.
- Orchestrated automated monitoring with metrics, alarms, and logging, decreasing MTTD and MTTR by 22%.
- Deployed automatic fallback mechanisms that enabled system reliability and accelerated development, driving a 12% increase in feature delivery speed.

Webacy Remote
Web3 Security Data Analytics Extern September 2024 – November 2024

- Audited over 100 smart contracts across 5 blockchains, identifying critical vulnerabilities and improving security protocols.
- Improved risk profiling accuracy by 27% using Python and SQL for advanced cluster analysis.
- Utilized Tableau dashboards, reducing reporting time by 30%, and provided actionable insights for 150+ smart contracts.

JP Morgan Chase & Co Remote
Software Engineering Extern October 2023 – December 2023

- Optimized 100+ trade visualizations using JPMorgan Chase's Perspective library, reducing system errors by 15%.
- Resolved 10+ critical issues in key repositories, ensuring 99.9% uptime and seamless functionality of the application.
- Designed custom modules for processing real-time trade data, reducing latency by 25% and accelerating efficiency by 30%.

PROJECTS

BibleBot | Twilio, Flask, Python, NLTK

- Engineered a scalable SMS chatbot leveraging Twilio's API, supporting over 100+ users with real-time messaging.
- Increased query efficiency by 76% using natural language processing techniques for topic-based Bible verse responses.
- Deployed the system with 0 downtime, ensuring high availability and uninterrupted user interaction.

The Magic Model | Python, TensorFlow, Pandas, MySQL

- Designed a machine learning model to predict S&P 500 trends with 64% accuracy, leveraging data preprocessing and feature engineering.
- Applied PCA and Lasso regression, reducing feature dimensionality by 30% and improving runtime efficiency by 20%.
- Streamlined workflows to improve performance by 68% and reduce workload by 8% when analyzing the 2022 S&P 500.

The Pharmaceutical Project | HTML, CSS, JavaScript

- Developed a web application delivering 98% accurate real-time medication ETAs, attracting over 1,000 daily active users.
- Improved pharmacy operations by 52% through RTA datasets and an optimized user interface.
- Collaborated with customers to optimize user interface and statistical data, increasing user satisfaction metrics by 25%.

LEADERSHIP EXPERIENCE

Management Leadership for Tomorrow Dallas, Texas
Career Prep Fellow January 2025 – Present

- Accepted into a selective 18-month professional development program for high-achieving diverse talent.

National Diversity & Leadership Conference Dallas, Texas
Leader January 2022 – April 2022

- Delivered keynote presentations to over 200+ students and professionals, sharing insights on academics and entrepreneurship.
- Partnered with 3 local organizations to sponsor scholarships for underrepresented students, totaling $10,000 in funding.

Distributive Education Clubs of America (DECA) Dallas, Texas
Conference Speaker December 2021 – May 2022

- Secured a Top 10 placement out of 5,000+ participants in a national entrepreneurial competition.
- Presented an innovative business plan to a panel of 15+ company executives, showcasing strategy and creative thinking.
